Veterinary Chemistry and Chemiluminescence Analyzer

The space-saving analyzer delivers high-quality chemistry and immunoassay results you can trust for your vet clinics.

Advantages

2in1
Integrated chemistry and immunoassay analyzer in one device.

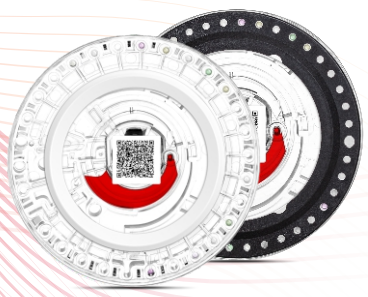

Sector Rotor
Maximum run 3 tests at a time with flexible tests from an individual parameter or a combination.

Ease to Use
No pre-processing for sample with fully automated system requires no special skills for operators.

Broad Test Menu
A broad portfolio including high-performing immunoassay and chemistry menus.
